Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand users of the **Personalized Networking Assistant** by analyzing what they **Say, Think, Do, and Feel** while attending networking events. This helps the team design an AI-powered solution that provides personalized conversation starters, topic verification, and networking support.

SAYS - I want meaningful conversation starters. - I don't know how to approach new people. - I want to network confidently.	THINKS - Will this conversation be interesting? - I hope I make good professional connections. - AI can help me network better.
PERSONA NAME <i>(Conference Attendee / Networking Professional)</i>	

DOES

- Enters event details and interests.
- Generates AI conversation starters.
- Verifies topics using Wikipedia before talking.

FEELS

- Nervous before networking.
- More confident after getting suggestions.
- Happy when making valuable connections.
