Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Define Problem Statement

Building the right professional connections is difficult for many students and professionals. They often struggle to find mentors, recruiters, or collaborators who match their skills and career goals. Existing networking platforms usually provide general suggestions, making networking time-consuming and less effective. The Personalized Networking Assistant helps solve this problem by providing personalized connection recommendations, making professional networking easier and more meaningful.

Problem Statement

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or professional looking to build a strong network.	Find the right mentors, recruiters, collaborators, and industry connections.	I receive too many irrelevant connection suggestions and have difficulty finding people who match my interests and career goals.	Most networking platforms do not provide personalized recommendations based on skills, goals, and preferences	Frustrated and less confident about building meaningful professional relationships and career opportunities.
