Data Flow Diagram

The Data Flow Diagram (DFD) represents how data moves through the AI-Powered Conversation Starter Assistant. It shows the interaction between the user, AI models, external APIs, internal processes, and databases.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data. (Example: User, Wikipedia API)
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data. (Example: Manage Networking Session, Verify Facts)r).
Rectangle (solid fill, no number)	Data Store	An activity that transforms incoming data into outgoing data. (Example: Manage Networking Session, Verify Facts)
Labeled arrow	Data Flow	Shows the movement of data between entities, processes, and data stores.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
